**ZoMo**

## **Z.POD - the new and exclusive Zomo product.**

Thinking about the damage caused by conventional cigarettes, Z.POD aims to be a more friendly alternative for smokers and ex-smokers. To reinforce this concept, we implemented Super Smooth Nicotine in Z.POD, also with a refill available that is compatible with other devices.

### **INNOVATION**

Super Smooth Nicotine for harm reduction: no combustion, no cigarette-butt pollution, no unpleasant smoke. Because it does not burn tobacco, fewer toxic components are inhaled compared to conventional cigarettes.

### **TECHNOLOGY**

Ultra-fast charging in just 12 minutes. The ceramic coil guarantees superior quality. Easy to change flavors and produce steam, making your experience a lot better and more focused on harm reduction.

### **DESIGN**

Modern, elegant and practical Slim design. With LED indicator and Speed battery, the Z.POD stands out with its 1.6 ml refill, the largest on the market, with 500 Puffs. Also, the lightest POD on the market.

**Started Kit Z.POD**, sublime and elegant, includes a rechargeable Z.POD Device via Micro USB-B. Its 320mAh Speed battery allows you a full charge in just 12 minutes. The 1.6ml disposable tank and its ceramic Coil mean superior quality. In addition to the device, the kit has two 1.6ml Z.POD refills, the refreshing Cool Menthol and the soft Virginia Tobacco with 35mg or 50mg.

**ZOMO Z.POD CREME CRUNCH**

The smoothness of cream with the unmistakable touch of Vanilla.

**ZOMO Z.POD VIRGINIA TOBACCO**
